About Company

BNYAN is a leading provider of precast concrete and modern construction solutions in the UAE and across the Gulf region. With a strong commitment to innovation, quality, and timely delivery, **we operate as a 3-in-1 company: offering engineering consultancy, state-of-the-art precast manufacturing, and full-scale contracting services.** This integrated approach allows us to deliver comprehensive, efficient, and high-quality solutions that meet international standards and address the evolving needs of today's construction industry.

Our Mission & Vision

Mission

Delivering high-quality precast products and tailored engineering solutions that ensure durability, speed, and efficiency, while maintaining the highest standards of safety and sustainability.

Vision

To be the region's most trusted name in precast construction, providing sustainable and innovative solutions that shape the future of modern building.

Our Goals

Briefly elaborate on what you want to discuss.

Deliver Excellence

Provide high-quality precast products that meet and exceed international standards.

Satisfaction

Build long-term partnerships by understanding and fulfilling the unique needs of every project.

Sustainability First

Elaborate on your third goal here.

Our Services

Precast Boundary Walls

- Fences for farms, villas, and industrial sites
- Modern designs with durable finishes
- Fast installation and long-lasting performance

Precast Structural Elements

- Precast walls
- Columns & foundations
- Beams & bridges
- Hollow core & solid slabs

Special Products & Innovative Solutions

- GRC works (Glass Reinforced Concrete)
- Jersey barriers
- Precast car parking shades

Precast Buildings

- Ready-made residential units
- Offices and administrative buildings
- Industrial and commercial facilities

Infrastructure Solutions

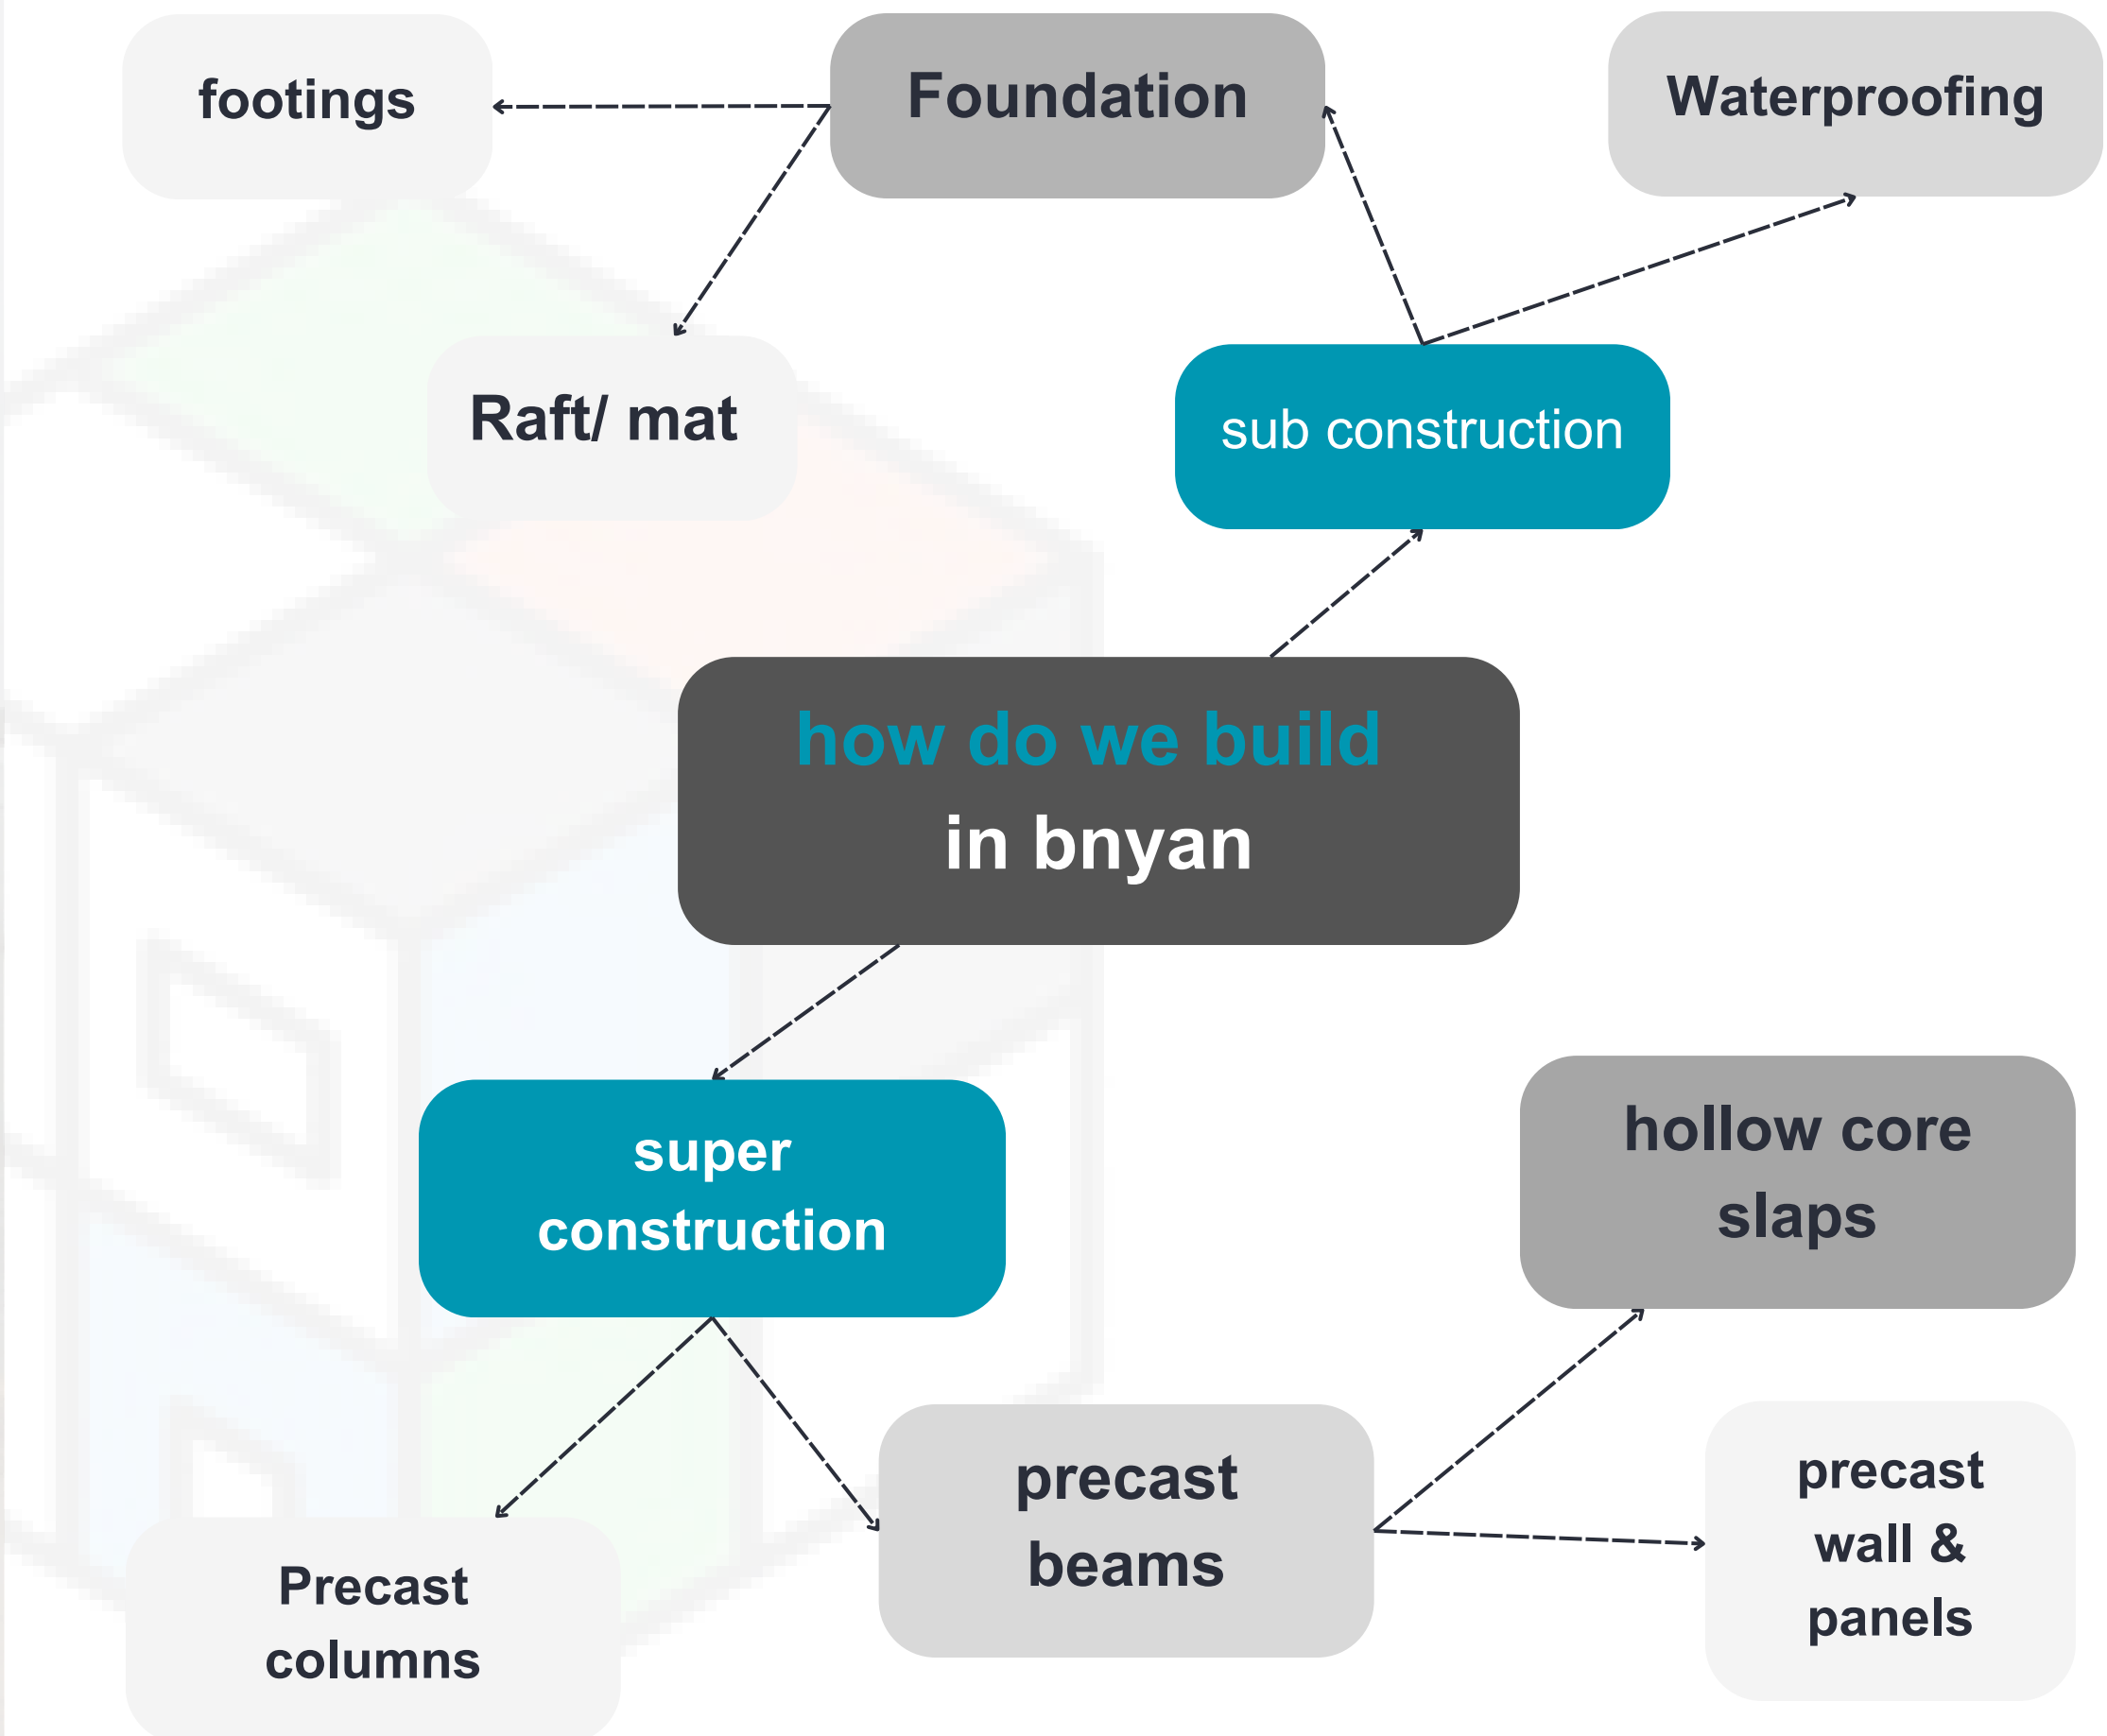

- Precast manholes
- Drainage & water channels
- Light pole foundations
- Underground & above-ground water tanks

Installation & Engineering Supervision

- Complete on-site installation
- Quality control and waterproofing/thermal insulation tests
- Engineering supervision until final handover

Building Construction Stages

This diagram explains the main parts of building construction:

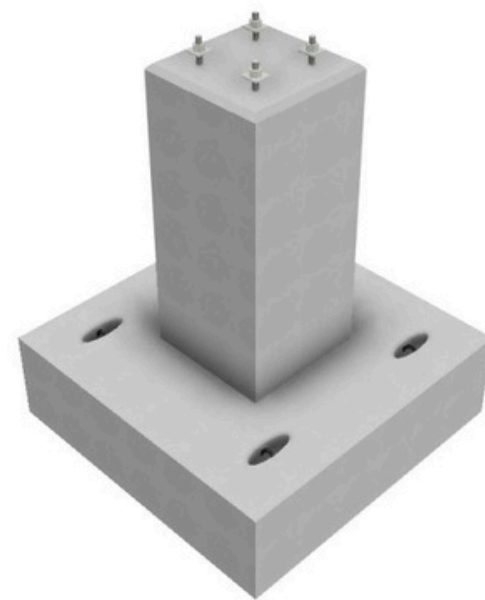

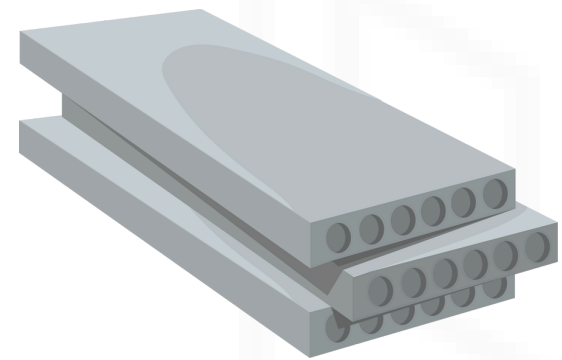

Our Traction

BNYAN has achieved significant growth and recognition in the precast construction industry.

- **Proven Experience** – Delivered multiple residential, commercial, and industrial projects with high client satisfaction.
- **Strong Partnerships** – Collaborated with leading developers, contractors, and consultants.
- **Production Capacity** – Advanced precast facilities capable of handling large-scale and complex projects.
- **Sustained Growth** – Year-on-year expansion in products, clients, and regional presence.
- **Market Reputation** – Recognized for reliability, quality, and timely delivery.

Our product

Our Projects

We take pride in delivering a wide range of precast construction projects that combine innovation, durability, and efficiency. Our portfolio covers diverse sectors, including:
