The Teachings of Grigori Grabovoi about God.
Control of Time.
Technologies of Control of Time

Teacher:
Viacheslav
Konev

Organizer
Elizabeta Bobnar Najzer
center.grabovoi@gmail.com

Lecturer: Viacheslav Konev
Organizer: Elizabeta Bobnar Najzer
Language: English, translated from Russian

In this seminar, we will consider technological approaches to organizing human action in the very structure of time, that is, in the time space itself. Developing the material separately, we will consider information about timeless space, its organization, and its creation with the participation of a person. This material is the basis for the technologies of materialization in the physical world the restoration of the lost organs of the physical body of a person.

Center Grabovoi - Video Portal

Chaque séance intitulée « Enseignement de Grigori Grabovoi sur DVD, Le rajeunissement dans la vie éternelle », est la combinaison d'un ensemble complet de 12 séminaires, entièrement consacré aux dernières conférences de Grigori Grabovoi sur les « Technologies de la vie éternelle » et les « Technologies de l'éternité » (sept 2010). Nous étudions ici le système complet de Grigori Grabovoi le 12 août 2014. Chaque DVD est accompagné par un livre éducatif par l'auteur, même s'il n'a pas assisté aux cours précédents.

Au cours de son enseignement, Grigori Grabovoi emploie la méthode dite de « cœur de professeur pour assurer la vie éternelle ». Ce système est entièrement basé sur la collaboration active des participants, qui tiennent à l'heure un contrôle total et assurent le processus à chaque participant et à tout le monde.

La question du rajeunissement est au cœur des préoccupations de tout grand maître. Grigori Grabovoi nous conduit à cette information dans les travaux les plus divers de son Enseignement. Ce séminaire maître expose les principes, les méthodes et les outils qui sont à la base de toutes les technologies de rajeunissement développées et d'expliquer leur connaissance au participant.

Les technologies de rajeunissement dans la vie éternelle se distinguent des technologies de rajeunissement ordinaire. Ce séminaire est consacré à la connaissance dans lequel il agit son séminaire d'élaborer le niveau de rajeunissement idéal, mais surtout de maintenir cet état de jeunesse pour l'éternité.

Nous étudions des technologies de contrôle totale sur le passé et le futur, des technologies visant à créer une structure matérielle de rajeunissement, et ce que ces technologies ont vu jusqu'à présent, uniquement sur le plan du cœur. On aura très certainement aussi permis de passer du niveau supérieur de la conscience au 0ème humain.

Notre objectif :

- Technologies de la Réalité Informationnelle dans la vie éternelle
- Différentiel de participation des technologies de rajeunissement dans la vie éternelle par rapport aux technologies de rajeunissement ordinaire.
- Technologies de rajeunissement grâce à l'interaction avec des objets de la réalité future.
- Technologies de rajeunissement basées sur la connaissance de la mission participative de chaque individu.
- Validation dans le présent de tous les éléments passés et futurs.
- Systèmes matériels de rajeunissement.
- Création de systèmes matériels de rajeunissement et d'équipements pour le passé.
- Technologie de création de « tous futur » grâce à des constructions lumineuses.
- Construction des structures matérielles futures dans la perspective du rajeunissement.
- Gestion du corps physique grâce aux technologies de rajeunissement dans la vie éternelle.
- Technologie de la conscience.
