About Us

The Revolutionary Practice Summit was born from a simple but radical belief: that the healers reshaping mental health deserve a space built specifically for them.

Jennifer Agee, LCPC has spent 25 years leading, mentoring, and empowering clinicians to build practices that are both clinically excellent and personally sustainable. Gabrielle Juliano-Villani, LCSW built and sold a seven-figure Medicare and Medicaid-based group practice and then rebuilt her professional life entirely on her own terms. Together, they created the Revolutionary Practice Summit because they couldn't find the room they were looking for, so they built it.

This is a summit designed by integrative practitioners, for integrative practitioners. A space where the conversation goes deeper than billing rates and caseloads — where plant medicine, somatic healing, spirituality, and nervous system science belong at the same table as ethics and clinical excellence.

"Thank you Jennifer and Gabrielle for bringing us all together."

— Heather Navarro

"I wanted to thank you both for creating this conference. As someone who has been on this path for many years, it feels good to be able to talk more openly about my approach. I am so grateful to be in a space that is made specifically for those of us that feel aligned with this kind of work."

— Carley Saravia, Aurora Holistic Therapy

Your Next Connection Awaits!

Therapists are shifting fast. They're leaving behind outdated systems and building aligned, sustainable businesses. They're looking for tools, services, and support that match their values around equity, accessibility, and real impact.

The Revolutionary Practice Summit gives you access to over 250 group and private practice owners in person and more than 50,000 via email and social media exposure!

By sponsoring this event, you're connecting with a deeply engaged audience of therapists, consultants, and wellness professionals who are actively investing in their practices.

They're not just attending, they're taking action and looking for brands and organizations that support their business growth goals.

This is your opportunity to:

- Build trust with a values-aligned audience
- Showcase your offerings to thousands of purpose-driven professionals
- Build relationships that last with business owners ready to invest

Join us in St. Pete Beach to position your brand at the forefront of a movement redefining mental health and healing.

Why Sponsor?

Our attendees aren't just browsing - they're actively building practices and investing in tools that support their growth. You'll be in front of decision-makers who value innovation, accessibility, and ethical business.

We don't believe in passive sponsorships. We create real opportunities for brand connection through intentional placement, interactive experiences, and authentic engagement.

This summit is created *by* mental health professionals *for* mental health professionals. We understand what our audience needs and we partner with sponsors who genuinely support that mission and benefit our community.

WELCOME TO THE REVOLUTIONARY PRACTICE SUMMIT!

This isn't your average CE event. It's a living, breathing gathering of licensed professionals who are also healers, seekers, mystics and rebels.

We're bringing together therapists, facilitators, and non-traditional practitioners to explore what's actually working - the modalities that regulate the nervous system, support the spirit, and expand the definition of healing.

It's all happening at the Sirata Beach Resort in Sr. Pete Beach, Fl. Think beachfront, bright sun, poolside vibes, and evening sound baths under the stars. We've secured a room block with a discounted rate just for summit attendees. You'll book your own room directly with the hotel and, yes, we're right on the beach.

Expect 3 days of experiential sessions, connection, embodied learning, and ethical integration.

- Plant medicine retreat integration and somatic approaches
- Nervous system regulation, drumming, and body-based healing
- Hypnotherapy, chakra frameworks, and astrological case conceptualization
- Spirituality, meaning-making, and culturally responsive practice
- Sustainable practice design, burnout, and the healer's own healing
- Professional development that actually sees the whole person — not just the clinician.

See you soon!

INCLUSIONS:

- Access to all summit sessions and CE opportunities up to 13.5 NBCC and ASWB CE's
- Optional evening experiences: sound baths, breathwork, coaching with the speakers, tarot and human design readings and a closing ceremony
- Community connection with other purpose-driven therapists and practitioners
- Room block discount at the Sirata Beach Resort. After registration, we will email you with a link to book your accommodations directly with the hotel.

The Transformation You've Been Craving
This isn't just about learning new techniques.

It's about remembering who you are beneath the busyness and stepping into the next, more grounded, more expansive version of yourself.

At the Revolutionary Practice Summit, transformation doesn't happen only in the workshops.

It unfolds in the conversations over coffee, the quiet pauses between sessions, and the moments of inspiration that make you whisper, "Yes, that's it."

You'll leave with more than insight. We are creating a space for transformation to happen.
