

Are you an ICF Credentialed Coach, craving real and rich conversations with other coaches about the realities of your coaching practice?

The **Gathering** is a Coaching Supervision program, facilitated by two world-class Faculty, who provide a **safe space** for coaches to **grow, reflect, learn** new skills, and **discuss real challenges** (and **celebrate real wins**) they face in their everyday practices.

Co-creators Rosa Edinga and Carolyn Hamilton-Kuby have **decades of combined experience** and success in the areas of **professional coaching, mentor coaching, coach education, coaching supervision and business ownership**. They are also considered thought leaders and global subject matter experts on coaching core competencies.

Aligned with the ICF definition of Coach Supervision, Carolyn and Rosa provide a **dynamic** and **reflective** process of **collaboration, guidance** and **support** through which coaches develop their personal, professional, and ethical capacity, their coaching mindset and their way of being.

The **Gathering** blends their experience, their passion for coaching, and their signature styles, with the **power of the circle**, to create a space that **combines lightness, boldness, wisdom sharing, support** and **humour**.
