**WELCOME TO YOUR ARCHANGEL GUIDE!**

## **Getting to know the Archangels**

When we call for the help of the Archangels, we are asking specialists and volunteers to assist us directly, and advocate on our behalf - eternal, endlessly wise specialists and volunteers!

The Archangels have been given the monumental task of managing life throughout the Cosmos (in partnership with many other beings!). This includes the creation and facilitation of soul contracts, life paths, the spiritual development of souls, order within the natural world, and much more. Each Archangel has a different area of expertise which works in conjunction with all of the other Archangels to ensure the best possible journeys for all on Earth. They are always working in tandem with the Higher Realms - or the Higher Dimensions - and the Cosmic Source that looks out for us all.

The angels do not need to be adored by us. They only ask to be included in our lives, because that is the wish of the Universe, and the wish of our soul.

## 5 Tips for Making Contact with Archangels:

Given the enormity of their power and wisdom, it may feel like a formal prayer to request assistance is the most appropriate choice. However, this is not actually necessary. When I ask for help, I often speak to the Archangels as I would with my best friends, in a conversational tone that is also loving and respectful.

It's important to note that the way the Archangels appear to me may be slightly different for each person with regard to the colors of the energies, what they are holding, and the form of the animal spirit.

Your personal experiences with the Angels and how they appear to you can be a very unique experience which is dependent upon your personal symbols and databank of experiences.

Archangels can appear to you with either male or female attributes. As beings in spirit, there is no set gender.

There is also no set form. They may come to you as a colour, a living creature, a strong sensation, or visually, in the form with which you are most comfortable.

Those who have strong, ongoing contact with Archangels tell us that there are many orders of angels. The Archangel order, by special appointment by Source, have been tasked with the helping of humanity as we journey through our lives on Earth.
