

Goddess Isis Initiation and Sirian Energy Activation Course

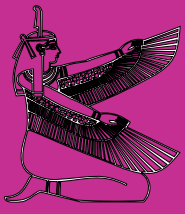

The Isis Initiation and Sirian Energy Activation Course is a pre-recorded self-paced 7 week guided Initiation designed to connect you with the Divine Feminine power of Goddess Isis and the energy of our Sirian Star Brothers and Sisters, while clearing and activating energies in your 7 Chakras.

In Ancient times, Spiritual Initiates were guided by "Gods and Goddesses" from the Stars, to embody the mysteries of the Cosmos, and activate their full Spiritual potential and powers. Great Masters like Jesus have walked this path of Initiation in Ancient Egypt, shedding fear and separation based programming or Karma, and engaging in Spiritual practices that allow for an awakening of Kundalini energy. By working to balance the dual Masculine and Feminine energies within one's being, the Initiate may activate higher Spiritual sight and the ability to transcend ordinary states of consciousness, or even transcend the physical limitations present for most humans.

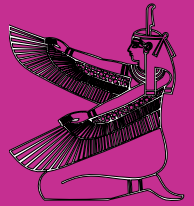

Once the energy field, mind and body of the Initiate have been properly cleansed and cleared of heavy energies, old programming and any physical toxins, the Initiate may begin to access extrasensory perception, manipulate energy or physical reality around them, or experience a heightened state of synchronicity, flow and alignment with the Universal energy field.

Ultimately the path of Initiation is meant to align the Initiate with their Higher self, their Source and their ability to transcend the illusion of physical reality. The path of Initiation is a life long or multi-life long path that requires trust, focus, and dedication. It is a path of humility, and receptivity, allowing for constant evolution and transformation, in service to the Divine. In this course you'll work with a variety of practices, teachings and exercises that will allow you to begin the process of upgrading and transforming your energy field for alignment with your highest cosmic potential.
