THE ALCHEMY OF SPACE

Feng Shui is the living art of aligning a building for well-being, harmonious relationships and success. Working with the *qi* of interior and exterior, the principles of yin & yang, the 5 elements, the trinity of heaven/earth/human and the power of intention, ritual and symbolism, Feng Shui heals and enhances spaces for positive effect.

Space clearing transforms homes & premises by detecting and clearing the imprints of stress, trauma & stagnant energy of the past. Ceremonies use smudging, sound healing, offerings and intention to cleanse and harmonise, and attune spaces to manifest desired intentions.

Many people recognise the power of this work to augment quality of life and good fortune in the places they live and work, or to support the process of selling or building property.

You will also learn the art of creating, holding and closing sacred space and facilitating ceremony, a key component of space clearing and healing circles of all kinds.

This is an in-depth, comprehensive and professional training, uniquely integrated with a holistic and shamanic approach. You will learn methods, techniques and gain practical experience of space clearing with both Sue Holmes and Davina Mackail's support and experience in this exciting collaboration:
