Conquer Cravings, Feel Better, Live Bigger

THE SCIENCE: *Love Magic Body Oil* contains a blend of nourishing oils to support healthy skin combined with heart-opening and balancing essential oils. Each bottle is infused with a Carnelian crystal to banish sorrow, protect against envy, fear, and rage, and remind us of our inherent love:

- *Coconut oil* - Rich in medium chain fatty acids and the omega-9 essential fat oleic acid to protect the skin and lock in moisture, as well as having anti-inflammatory healing properties
- *Jojoba oil* - Contains liquid wax esters similar to our natural skin sebum, known for hydrating and soothing properties
- *Argan oil* - Rich in squalene, vitamin E and polyphenols to promote skin elasticity and hydration by supporting water-holding capacity, while softening and relaxing the skin
- *Rose essential oil* - Provides a rich floral scent fit for a Goddess, while acting to increase circulation, decrease inflammation, and open the heart
- *Sandalwood essential oil* - Provides a deep exotic scent that helps bring emotions into balance, foster peace and well-being, while providing energetic support for achieving goals

WHAT MAKES IT JUICY?

Women can get caught up in self-criticism and other people's needs so much that they devalue their own worth. Your needs are just as sacred. When you choose to honor yourself with the same love and appreciation you so freely give, you affirm that you are equally deserving. You owe yourself that kindness— no one can cherish you as deeply as you can. Transforming your inner dialogue and nurturing yourself with compassion and care is a bold step towards the life of your dreams. This power is yours to claim, every single day.

Love Magic Body Oil offers you an invitation to cherish yourself (extra delightful after a shower!):

- Choose a slow sensual song that makes you feel good
- As it begins, set your intention and take a few deep breaths
- Slowly caress your body with the oil using the tender, loving care of someone who adores you (because you do!). Go slow, giving each part some love: your arms, legs, belly, hips... everywhere!
- Tell each part of your Goddess self why you love her and delight in how extraordinary you are. There is so much to love: your strength, flexibility, enthusiasm, curiosity, creativity, nurturance...
